

What to expect in the Academy Program in regards to:

Coaches:

- Staffing for teams is done after tryouts
- We assign a head coach for all teams, some teams have assistants as well
- All of our coaches also coach club so at times, there may be conflicts where they cannot make a training session.
- All of our staff do their best to make sure they can attend all events, but there are times that conflicts they cannot avoid. If this happens, we will communicate this as early as we can and let parents know who will be coaching the event

Team Training:

- Once teams are finalized, we do our best to pair up “like” teams for training. This means that two 07 girls team could train together, or an 07g and 06g teams or 07g and 08b team may train together.
- It takes about 6-8 sessions for players to get comfortable with understanding Futsal (If it's there first year)

Training Sessions:

- Any teams that have fall training sessions will usually be run by Coach Ducks
- Coach Ducks rotates during the winter and helps or run training sessions with each team
- In the winter, we do our best to have our staff run training sessions with their teams, but there are conflicts at times and teams will have a guest coach. We do our best to limit these conflicts.

Tournaments (Away)

- Should be minimal conflicts or none, depending on how many teams the coach has during that event
- If multiple teams advance during a tournament, the staff and Coach Ducks will make decisions on what coaches will coach their teams and what coaches will cover
- Playing time – With exception to the last 5-8 min of a game, we do our best to rotate players as evenly as possible. We want players to learn and get better

Tournaments (Local)

- For our tourney or local tourneys, we prioritize players schedules and not coaches schedules so players don't miss games
 - o For example, A coach may ask for games to be done by 2pm but 4 of the players cannot play until 2pm.
 - o The staff will help out in these scenarios so players don't miss. However, teams may not have their coach for games, which we understand is not ideal, but would rather have players be able to play.
 - o The staff coach that is filling in to cover will have a PDF of players names, numbers, positions, subbing, etc

- Playing time – With exception to the last 5-8 min of a game, we do our best to rotate players as evenly as possible. We want players to learn and get better

Coaching Philosophy

- We pride ourselves in not only our Futsal experience but also our outdoor experience. Here at Futsal Factory Academy, we teach the game of Futsal and how it translates to the outdoor game
- Our curriculum is designed to teach the basics to advanced technical and tactical parts of the game as we emphasize first touch, decision making on the ball, movement off the ball and offensive/defensive accountability
- Our 6 stars represent our 6 core values. We talk about a different core value every few trainings. They are Passion, Honor (Respect), Discovery, Unity, Strength, and Transformation
